ABOUT

Computer Science and Engineering student at SRM University specializing in AI & ML, skilled in full-stack development, Python, and AI applications. Experienced in deploying projects, proficient in Python, C, C++, HTML, and CSS. Active member of Code Krafters with strong communication and teamwork skills. Eager to contribute to innovative projects and want to expand technical expertise.

Degree	Institute	%/CGPA	Year
B.Tech CSE-AIML	SRM Institute of Science and Technology - Rampuram campus	CGPA - 9.85	Pursuing
Class XII	Narayana Junior College, Hyderabad	91.8%	2021-2023
Class X	Loyola Model High School, Hyderabad	CGPA - 10.0	2021

WORK EXPERIENCE

Web Development Intern | Shadowfox

July'25

- Worked on creating personal portfolio pages & functional web layouts, applying modern design principles.
- Gained hands-on experience in building static and responsive websites using HTML and CSS.
- Strengthened programming fundamentals through projects and tasks involving Python, C, and C++.
- Collaborated with mentors to improve code structure, styling consistency, and cross-browser compatibility.

PROJECTS

- **Real Estate Management System** - A full-stack property listing platform using HTML, CSS, JavaScript, PHP, and MySQL. Integrated search, filter, chatbot support, and an EMI calculator. Demonstrates front-end design, backend logic, and database handling.
- **Machine Learning Projects** – Built predictive models using regression and classification with Python, Scikit-learn, Pandas, NumPy, and Matplotlib. Developed projects like Car Maintenance Cost Estimator, IPL Price & Score Predictors, Disease Prediction, and Smart Trip Estimator, demonstrating strong analytical and problem-solving skills.
- **JavaScript Projects** – Developed interactive web applications with real-time data handling using HTML, CSS, JavaScript, APIs, and DOM manipulation. Projects include Quiz App, Expense Tracker, To-Do List, E-commerce Website, and Weather App.

CERTIFICATIONS

- **Unstop - 30 Days DSA Bootcamp**
- **IntrnForte** - Python Certification
- **VIT DeFy'25** - Hackathon and **NPTEL** - Data Base Management System

SKILLS

- **Programming Languages:** Python, C, C++, HTML, CSS, JavaScript, PHP.
- **Web Development:** Front-end Design, Responsive Layouts, Web Forms, User Interface Design.
- **Backend & Database:** MySQL, XAMPP, SQL Queries.
- **AI & Algorithms:** A* Algorithm, DFS.
- **Tools & Platforms:** VS Code, Git, GitHub, XAMPP, Netlify, Figma (Basic), Cursor AI.
- **Soft Skills:** Team Collaboration, Problem-Solving, Communication, Presentation.

POSITION OF RESPONSIBILITY

Public Relations Member - Code Krafters

- Serve as the communication bridge between the club and the student community by coordinating outreach, crafting engaging content, and managing social media promotions to enhance visibility and uphold the club’s professional image.
